

# General Omnichannel Integration Suite changes

---

Release date: 2021-05-18

Released by: Divide

## General

---

- Parameter `X-SITEID` is removed and will be determined via the Auth0 application, which makes `X-SITEID` obsolete.
- Parameter `X-CULTURECODE` is replaced by `Accept-Language` to accord [HTTP specs](#).

## New endpoints

---

### AddressCompletion

Method	Description
<code>GET</code> <code>/api/v1/AddressCompletion</code>	Complete a NL/BE/DE/LU address using <a href="#">Pro6PP v2</a> .
